

Sales Representatives Consultants/Order Takers

The Australian Government is investing \$4 billion in Energy Efficiency Homes Package to improve the energy efficiency of Australian homes – making them more comfortable and helping householders - Save up to 40% on energy bills.

The homeowners insulation program commenced on the 1st July 2009 and ends on the 31st December 2011. Our Company is a registered insulation installer with the Australian Federal Government. Our vision at Roscon is to provide the 2.9 Million homes that may be eligible through-out Australia **FREE** insulation up to \$1,600.

This is an opportunity for those who want to increase their income and work their own hours. The people we are seeking will need to have or be able to provide an ABN (Australian Business Number) you must be able to work unsupervised, capable of measuring homes accurately and to complete the necessary documentation.
